

## **QUALITY POLICY**

### **VISION:**

*Our aim is to strengthen our position as the Polish leading producer of meat and meat products, and to systematically increase our global meat market share. We want to provide our customers the best-quality products that meet their requirements.*

### **OBJECTIVES:**

- *To produce and provide our customers the best products meeting the highest safety and quality standards and fulfilling all formal legal requirements.*
- *To build consumer trust and satisfaction by learning and meeting their requirements and expectations.*
- *To utilise the potential of employees by perfecting motivational payment systems and creating optimal working conditions.*
- *To care for the environment through the effective use of energy and introduction of energy-efficient technologies, and to constantly strive to minimize the Company's environmental impact.*
- *To care for the Company business in every aspect of its operation.*

### **RESPONSIBILITIES:**

- *To procedurally qualify suppliers, considering:
  - *verification of their codes of conduct that determinate safety and quality of products they supply us with,*
  - *assessment of their environment-related activities.**
- *To ensure health safety of products through constant improvement of the HACCP systems in our facilities.*
- *To constantly improve production processes and Quality Management Systems aimed at creating products that meet the expectations of our internal and external customers.*
- *To promote food quality and safety among all our employees through systematic trainings and motivational systems rewarding and strengthening pro-quality behaviours.*
- *To regularly review production and quality processes and to improve them by introducing changes resulting from the technological progress.*
- *To supervise and optimise costs in all Quality Management System processes.*

*The Quality Policy assumptions are known and respected by all employees, and its effectiveness is systematically reviewed.*
