

Sokołów Podlaski, 17.08.2017

S T A T E M E N T

With relation to the fact that cases of the African swine fever (ASF) have been found in Poland, we wish to inform that the meat and processed meat products delivered by SOKOŁÓW SA to buyers are produced under continuous supervision of the Veterinary Inspection and fulfill all safety criteria set forth in the food law regulations and in regulations on combating animal infectious diseases.

We would also like to stress that the virus which causes the disease is contagious only with respect to this animal species and does not pose any kind of threat for humans.
